

Deliver Email and Voice Messages

Campus Messenger simplifies communications to staff, students and parents through an easy-to-use Web interface. Use Campus Messenger to deliver regular, content-rich communications via email or phone.

Use your Campus data to create email or phone messages for students, parents and staff

Integrated Solution

The integration of Messenger and Infinite Campus gives users the power to access any data field to create and deliver communications such as:

- Email report card messages to parents reducing the number of printed report cards mailed, saving printing, postage and labor costs
- Notify parents immediately if their child is tardy or absent
- Deliver notices such as school closings due to weather, policy changes and meeting announcements

Key Features

- Choose between a text or HTML email or voice option that can deliver prerecorded WAV files and text-to-voice messages
- Use existing filters or groups to pull distribution lists and content from your Campus data
- Distribution based on a recipient's preset preferences and language selection
- Select from predefined or customize messages which can be saved and reused
- Send test messages to selected email addresses and phone numbers to verify message
- Pre-build and schedule messages to send at a later date or on a regular basis
- Inject high priority messages with precedence over other messages in queue

Leverage your Infinite Campus investment today by using the built-in Campus Messenger email tools. Or upgrade to Messenger with voice capabilities by contacting your Infinite Campus representative today.
