

SQL Reports User Guide NWEA Class Roster File (CRF)

Release Notes:

Release Date: 4/15/2010

Revision 1 - 6/26/2007: changed UserCalendar and CalcInstDays to join on .endYear because yearID was removed by Campus

Revision 2 - 3/10/2008: CAST(e.grade AS INTEGER) grade modified to include grade 'K' as '13' and grade 'E' as (pre-k) as '14' and strip leading zeros.

Revision 3 - 4/7/2010: teachers with name changes were showing up with both last names - used currentIdentityID = identityID to fix

Revision 4 - 4/15/2010: set default Student ID to use the MARSS Number

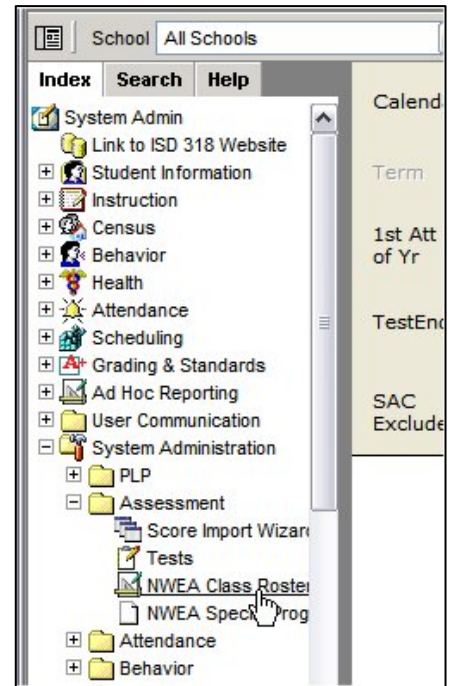

*****Important:** Revised reports are deployed by request from the district.
If you suspect that you're not running the current version please contact:

Description

SQL Report that extracts data needed to build the NWEA Class Roster File (NWEA CRF). The reports are extracted to external files, by building, where they must then be combined into a single file that is submitted to NWEA for MAP Testing.

Instructions

Navigate To The Report: This report is found in the Campus Index at: System Administration>Assessment>NWEA Class Roster File. (Note: If you can't navigate to that location you'll need to see your district Campus contact to get Tool Rights granted.)

Enter Your Logon Information:

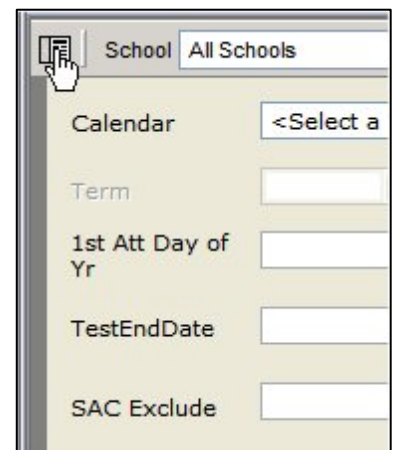

User Login: rs2005\stu####
(where #### is your 4-digit district number)

Password: use your ODBC reports password.
If you don't know the password, contact your district rep for Infinite Campus.

Report Selection Criteria

Click the 'Toggle Outline' Button: This 'turns off' the index and gives you more screen room to see all the buttons you need to filter and run your report.

Calendar/School: Select the desired *Calendar Name* for this portion of your NWEA CRF.

Bldg Schedule: Select a *Schedule* for the desired school *building* within the calendar previously chosen.

Current Scheduling Term: Select an appropriate *Scheduling Term* for your school building.

Grade(s): This is a multiple selection list - select as many grades as desired.

Roster(s): This is a multiple selection list so you can select as many rosters as necessary. Each line item consists of... course name, course number, section number, period, days and term. That's why you'll see a horizontal scroll bar on the drop list. Make sure that you select rosters from the appropriate term!

NWEA Testing Term: *Select an appropriate date range from this drop-down list.* The range you select will create a word: Fall, Winter, Spring or Summer in column 1 of your report/file. This is an NWEA file requirement.

****TIP**** You can view more of your screen report by clicking the double chevrons located at the extreme right on the report control panel.

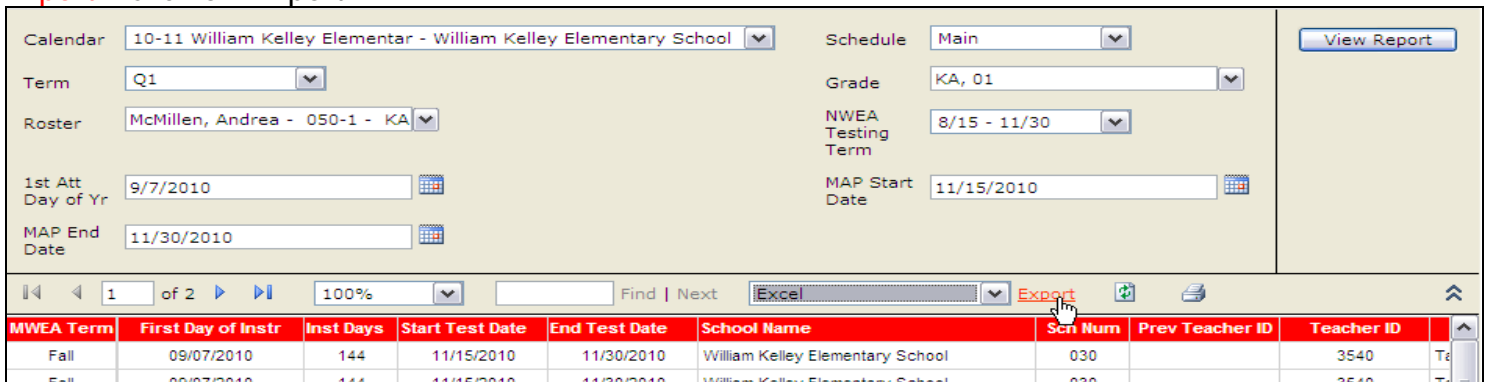

EXPORT DATA FROM THE REPORT:

Select a format: This is where you determine the type of external file that will be extracted from your report. ARCC supports use of Microsoft Excel, so **select 'Excel' from the drop list.**

If you decide to select a different file type, you'll be 'on your own' when it comes to file questions.

Export: Click on 'Export'

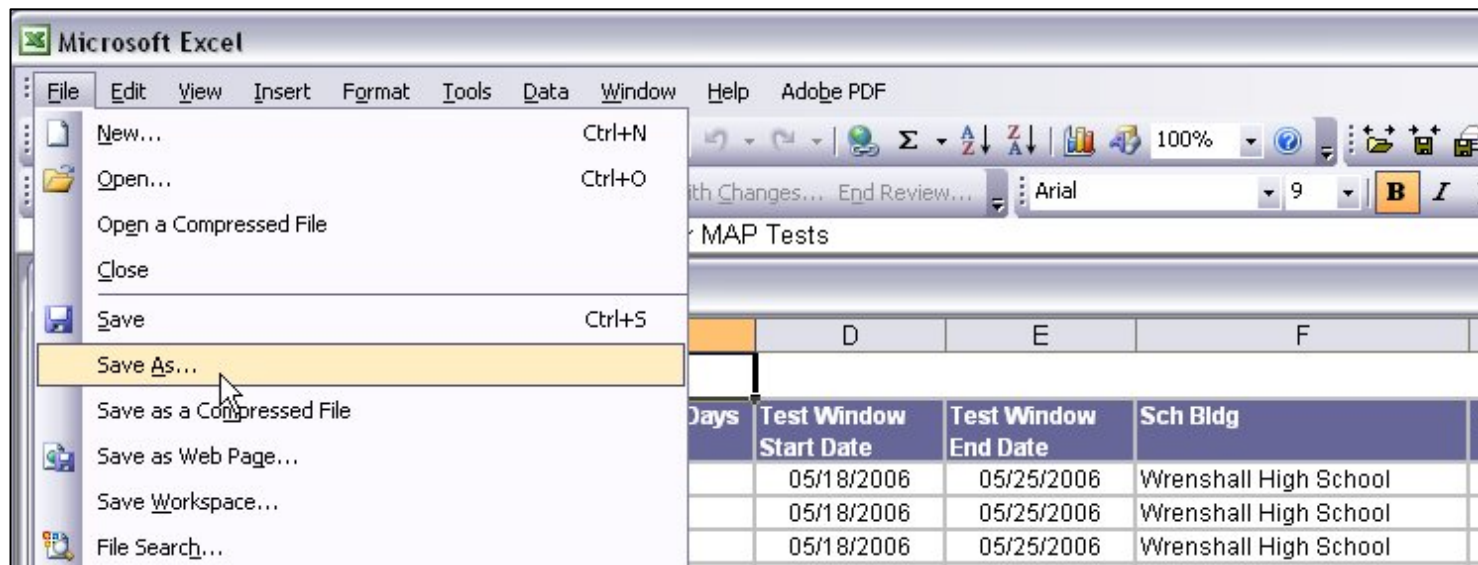

If everything is working right, a new browser window will offer you an option to Open, Save or Cancel operations on the new Excel worksheet.

Select 'Save' from the popup window. The file should save as a Microsoft Excel worksheet to your specified destination.

After opening the file in Excel, click on 'File', Select 'Save As': Be sure to give each building file a UNIQUE name!

Repeat the report process for each building that will be included in the NWEA CRF. Open all files in Excel, copy and paste into one worksheet. Remove the extra column headings and save the merged data as a single file to submit to NWEA.
